Alpha Primary Care
Design Drafting Competition

ARCHITECTURAL DESIGN PROBLEM & EVALUATION

Evaluation

Contestants will be evaluated on the following:

- Overall design solution to the architectural problem statement
- Creativity
- Placement and Presentation
- Meets Client's Needs / Design Intent
- Drawing requirements.

Design Problem

- The design problem statement will be developed by a licensed architect, engineer, or other design professional and selected for use by the NEF National Design Drafting Chair.
- The design problem will be available for download on the NEF website on or around June 1st of each year.
- The design problem will be generic enough for a solution to be executed by all areas of the United States.
